NEW DELHI 3 (INDIA);

The 27th Feb., 1950.

S. P. JAIN,

for Registrar General, India.

NATIONAL SAVINGS CERTIFICATES

Are now available in three different series, maturing after 5, 7 and 12 years. The certificates yield 3%, 3½% and 4-1/6% simple interest respectively, at maturity. The 12 years certificates increase your money by 50% but if necessary can be encashed after 18 months (Rs. 5/- certificates after 12 months). The 5 and 7 years certificates can be encashed at any time.

National Savings Certificates are obtainable in denominations of 5, 10, 50, 100, 500, 1,000 and 5,000 and you can invest upto Rs. 25,000 in them (inclusive of any Post Office cash certificates held).

Full particulars obtainable from all post offices, District Organisers of the National Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers or the National Savings Commissioner, Simla.

TODAY'S SAFEST AND MOST PROFITABLE INVESTMENT

REMARKS

The figures of births and deaths shown in this statement for the week ending the 28th January, 1950 relate to 131 towns with an estimated population of 16,789 thousands. The total number of towns is 224 and their population is 27,926 thousands. Thus 58% of the total number of towns representing 60% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 8,190 and 5,182 representing birth and death rates of 25.4 and 16.1 per thousand of population respectively.

(A) *States (Parts A and C)*.—The data here relate to 104 towns with an estimated population of 13,649 thousands. Information for Bihar, Madras, West Bengal and Assam could not be included. The total number of towns is 192 and their population is 24,354 thousands. Thus 54% of the total number of towns representing 56% of the total population

is covered. The numbers of births and deaths recorded in these towns were 6,935 and 4,395 representing birth and death rates of 26.4 and 16.7 per thousand of population respectively. The table at the end gives the position by provinces.

No town recorded a high death rate of 50 or over per thousand of population.

(B) *State (Part B)*.—The data here relate to 27 towns with an estimated population of 3,110 thousands. The total number of towns is 32 and their population is 3,572 thousands. Thus 84% of the total number of towns representing 87% of the total population is covered. The numbers of births and deaths recorded in these towns were 1,255 and 787 representing birth and death rates of 21.0 and 13.2 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
